

One corner café checked for LEED Platinum at Concept stage with SketchUp + Sefaira

Darker corner for kitchen or WC

Percentage of occupied hours where illuminance is at least 300 lux, measured at 0.85 meters above the floor plate.

Outer café offers maximum LEED points with current façade strategy

Façade redesign for better daylight

Percentage of occupied hours where illuminance is at least 300 lux, measured at 0.85 meters above the floor plate.

However, based on Sefaira analysis, inner café space could;  
 1) Benefit from slightly different façade strategy,  
 2) Use daylight info to inform internal layout
